

New Women and Babies Hospital Project

Fiona Stanley Hospital precinct

August 2025

The WA Government is building a world-class Women and Babies Hospital and expanding facilities at Osborne Park Hospital and Perth Children's Hospital.

The new hospital will be built on land within the Fiona Stanley Hospital precinct where two new multi deck car parks will also be delivered as part of this project.

What's happening in August?

New Women and Babies Hospital

Following completion of early investigation works, the Managing Contractor will take possession of sections of car parks 8 and 9 - the site for the new Women and Babies Hospital. This will be staged over the next two months.

Stage one will see fencing erected around a large section of the parking area adjacent to Fiona Wood Road. Works will include service location and diversion, and removal of light poles.

New multi-deck car parks

Ahead of construction of the first multi deck car park, preliminary investigation works are underway to test ground conditions and identify underground utilities to inform the design of the car park.

These investigations will continue until construction starts in late 2025.

Work crews will be mostly working within the site of the new car park, currently referred to as car park 3. However, at times there will be testing on adjacent paths and local roads (Jennalup Street and Winch Way).

As part of early planning for a proposed second multi-deck car park, geotechnical investigations will be undertaken within car park 7, near Fiona Wood Drive.

What to expect

- General construction noise and vibration during some activities.
- Construction vehicles and equipment including, but not limited to, heavy vehicles, survey equipment, compactor, hand tools (powered and non-powered).
- Mitigation measures will be in place to minimise impacts where feasible
 - noise and vibration monitoring
 - water carts and hoses for dust suppression
 - temporary lighting will be directed away from properties
 - traffic control and signage to safely assist motorists, pedestrians, and cyclists where required.

Changes to traffic, pedestrian and cyclist routes

During these works, traffic control will be in place to assist motorists, pedestrians, and cyclists with any changes to traffic conditions. This may include redirecting traffic and stop-slow traffic controls.

Work areas

The image below shows the upcoming work areas:

- Car park 3 – preliminary investigation works are taking place ahead of construction of the first multi-deck car park.
- Car parks 8 and 9 – undergoing service location and diversion works ahead of construction of the new Women and Babies Hospital.
- Car park 7 – early investigations commencing to support planning works for an additional proposed multi deck car park.

Feedback

For more information about the project please visit womenandbabieshospital.wa.gov.au or www.buildingfortomorrow.wa.gov.au/projects/new-women-and-babies-hospital-project.

If you would prefer to receive updates by email, please contact womenandbabies@omid.wa.gov.au and we will add you to the distribution list.

Thank you for your cooperation while we complete this essential work.
